THE JOURNAL OF THE SOCIETY OF AUTOMOTIVE ENGINEERS

INDEX TO VOLUME VII, JULY-DECEMBER, 1920

	PAGES
July	1-116
August	117-218
September	219-310
October	311-406
November	407-486
December	487-576

A

Acceleration
- And flexibility 230
- Tests of engines at Bureau of Standards 135

Accelerometer, theory of the 189
Accidents, prevention of automobile 139
Accounting systems, shop production-control and (A. G. Drefs) 33, 470
Activities of the Sections 305, 401, 480, 562

Addresses
- Gittins, E J 65
- Of members desired 111, 330, 562
- Truck and Tractor dinner 64
- Vincent, J G, presidential 4
- Vincent, J G 127
- Williams, Major-Gen C C 65
- Wood, Major-Gen Leonard A 64

Administrative Committees, S A E
- Personnel 303
- Work of 127

Advantages of magneto ignition (A D T Libby) 277
Aerial crossing of the ocean 66
Aerial mapping 358

Aeronautic Division, S A E
- Personnel 303
- Report at summer meeting 195
- Result of letter ballot on standards 339

Aeronautical book and magazine list 136

Aeronautics
- Air navigation (E S Gorrell) 411
- Analysis of wing truss stresses 548
- Articles on 88
- Book and magazine list 136
- British events in 1920 32
- Calculation of balance 520
- Crossing the ocean 66
- Determination of control surface shape 518
- Development 130
- Effect of change in angle of stabilizer setting and area 513
- Effects of nature of radiator cooling surface 346
- False lift in free ballooning 109
- Federal regulations important 330
- Forms of attack in coastal war 548
- German airships 347
- Laws for air travel 474
- Machine-gun target balloon 362
- Naval architecture (Com J C Hunsaker) 504
- Nomenclature for 352
- Properties of special types of radiators 273
- Slipstream corrections in performance computations 29

Agriculture
- America's big job 561
- Electric lighting 162
- Harvesting 170
- Hours of operation 161
- Motorizing the farm 436
- Necessity for new types of road haulage 185
- Notes on power farming (R W Lohman) 160
- Operation chart 160
- Plowing and harrowing 170
- Value of production 561

Agricultural Implements
- Farm machinery 445
- Operating and initial costs 48
- Operating speeds of (Percival White) 47, 467
- Ottawa Beach plowing-speed tests 274
- Power required for various operations 165
- Used in raw land preparation 163

Air
- Compressors on Diesel engines 17
- Heating of, and its effect on power 182
- Heating reduces power 184

Air Mail Service operation costs for April 301
Aircraft insurance 499
Aircraft insurance problem 257

Aircraft
- Data on design of plywood for 480
- Determination of control surface stress 514
- Development 332
- Duralumin for 359
- Effect of altitude on radiator performance 61
- Factors affecting the risk 257
- Fore-and-aft movement of center of pressure 514
- Insurance 499
- Insurance problem 257
- Metacentric height 510
- Supercharged engines 177

Air navigation (E S Gorrell) 411
Airplane wood finishes 398

Airplanes
- Altitude record of Major R W Schroeder 46
- Annual tournament, first 46
- Armor for gasoline tanks 555
- DeHaviland materials 358
- First artillery fire adjustment by 365
- Fog-bound, guided by wireless 63
- High speed at great altitudes, factors involved in (Com H C Richardson) 13
- Kiln drying of woods for 181
- Optical determination of stresses in spars 393
- Relation of rib spacing to stress in wing planes 391
- Rubber armor for gasoline tanks 555
- Stress-strain relations in fabric 391
- Supercharged engine and 302
- Supercharger problems 32
- Theory of the accelerometer 189
- Wood finishes 398

Air Service, aerial mapping 358

Airships
- German 347
- German Bodensee 347
- Nordstern 347
- Zeppelin, latest type 347

Alaskan expedition, return of the 554

Alcohol
- Benzol and, as fuel 345
- Detonation of, and other vapors 523
- Engine fuel 320
- Ether and, as fuel 345
- From waste material 146
- Fuel mixtures 345
- Ignition temperature of 522
- Industrial 437
- Minor factor in fuel field 146
- Obtaining from coke-oven gas 320
- Researches on, as an engine fuel (H B Dixon) 521
- Vapor pressures of 521

Alkaline water and radiator cores 553

Alloys
- Aluminum (Zay Jeffries) 295
- Duralumin 359
- Experimental 349
- Forging 298
- Lynite 86
- Metallography of aluminum 295
- Phenomena of growth and aging of aluminum 296
- Production of new aluminum 86
- Working of duralumin 359

Altitude record of Major R W Schroeder 46

Aluminum
- Alloys (Zay Jeffries) 295
- Comparison with other metals 298
- Decreasing unsprung weight by the use of (A H Edgerton) 75
- Developments in alloyed (R E Carpenter) 86
- Effect of alloying on physical properties 297
- Forging alloys 298
- Leaf coating for airplane wood 398
- Metallography of alloys 295
- Phenomena of growth and aging of alloys 296
- Pistons 88
- Production of new alloys 86

Aluminum alloys (Zay Jeffries) 295
Amendments, Constitutional, adopted 4, 145, 352
American Engineering Standards Committee 344, 399
American farming 290
American merchant marine 333, 536
American Petroleum Institute meeting 500
America's big job 561
Analysis of fundamental factors affecting tractor design (O B Zimmerman) 7, 465
Analysis of wing truss stresses 548
Aniline 312
Annual meeting, S A E 355, 407, 487
Applications for water power 273
Area for proper mixture temperature, surface 28
Armistice, since the 440
Armor for airplane gasoline tanks, rubber 555

Army
- New light artillery tractor (G R Pennington and S K Wellman) 321
- What it is 548

Artillery fire adjustment by airplane, first 365
Artillery motorization as related to caterpillar traction (George W Dunham) 76

Artillery tractor, new Army light (G R Pennington and S K Wellman) 321
Atomizing fuel by variable engine pressures, controlling and (J G Willet) 51
August gasoline production 488

Automobile Lighting Division S A E
Personnel 303
Report at summer meeting 195
Result of letter ballot on standards 339

Automobiles
Alkaline water and radiator cores 553
Battery and magneto ignition compared 543
Beginning of standardization 343
Canadian sales 342
Cow-punching uptodate 302
Curved-surface bodies 266
Design factors 264
Designer's position and duties 264
Designs of the future 269
Destiny of business 187
Development of body designing 263
Fittings and design details 269
Most suitable steels for parts 327
Notes on the use of heavy fuel in engines (H M Crane) 147
Operation and care of vehicle-type batteries 234
Plywood and its uses in construction (Armin Elmendorf) 390
Prevention of accidents 139
Radiators 549
Rubber companies and the industry 210
Saturation point 346
Style and body types 267
Trend of body design (G J Mercer) 263
Wax body models 266
Wood body frames 267
Automotive engineering standardization and progress (C F Clarkson) 356
Automotive radiators (Karl F Walker) 549
Available fuels 224

Aviation
Aerial mapping 358
Air navigation (E S Gorrell) 411
Alaskan flying expedition compared with other long-distance flights 554
British commercial 562
Calibration of barographs used by Major Schroeder 102
Comparison of Hecter fuel with export gasoline 110
Foreign routes 114
Future of 59
Laws for air travel 474
Parachute 488
Possibilities in South America 50
Return of the Alaskan expedition 554
Rules of the air 411
Testing a Hispano-Suiza engine 63
Thrilling experience with parachute 223
Aviation parachute 488

Axles
Driving, in tractors 324

B

BAER, C J, ON PROBLEMS OF INLAND WATERWAY TRANSPORTATION 433

Ball and Roller Bearing Division, S A E
Activities 558
Personnel 303, 408

Balloons
False lift in free 109
Machine-gun target 362
Barographs used by Major Schroeder, calibration 102
Batteries, operation and care of vehicle-type 234
Battery and magneto ignition compared 543
Battery-ignition systems (J H Hunt) 537
Battleships, radio control of 499

Bearings
Double-row spherical 338
Load-carrying capacity of the single-row groove-type ball 335
Relation between pressure surface and ball pressures 337
Benzol, alcohol and, as fuel 345
Big marine Diesel engine 503
Board of surveys and maps 524

Books Reviewed
A B C of Aviation (Victor W Pagé) 212
Aeronautics (Edwin B Wilson) 396
Automotive Starting, Lighting and Ignition (R C Fryer) 212
Design and Construction of Heat Engines (William E Ninde) 213
Dyke's Automobile and Gasoline Engine Encyclopedia 396
Elements of Accounts (Charles F Rittenhouse) 212
Every Man's Guide to Motor Efficiency (H W Slauson and Howard Greene) 396
Internal-Combustion Engine Manual (Lieut Com F W Sterling) 213
Lubrication of the Motor Chassis (Victor W Pagé) 396
Machine Tool Operation (Henry C Burghardt) 213
Motor-truck design and construction (C T Schaefer) 396
Practical Aviation for Military Airmen (Major J A White) 213
Punches and Dies (Frank A Stanley) 212
Brake economy with hot-spot manifold 230
Brakes, motor truck 369
British aerial events in 1920 32
British commercial aviation 562
British Engineering Standards Association Steels for automobile parts 327
British tire standardization 154
BURNETT, R S, ON SCIENCE OF STANDARDIZATION 343
Burning heavy fuels 226
BURTON, R B, ON MOTOR TRANSPORT CORPS TRANSCONTINENTAL CONVOY 39

C

Cable wire, experiment in telephoning via 435
Calibration of barographs used by Major Schroeder 102
CAMPBELL, LORN, JR., ON WELDING AND ITS RELATION TO THE REPAIR INDUSTRY 42

Canada
Automobile sales 342
Five million dollars for highways 276
Canadian automobile sales 342
Canal, New York State's barge 410
Capacity of single-row groove-type ball-bearing, load-carrying 335
Carbureter tuning for economy 341

Carbureters
Advantages of pressure-jet type 54
Horizontal vs. vertical 52
Ideal 189
Saving fuel with the (W. E. Lay) 188, 449
Special type 53
Tuning for economy 341
Vaporizer 54
Various operating conditions 189
Carburetion and distribution of low-grade fuels (O H Ensign) 19, 448

Carburetion
Heavy fuels 392
System in internal-combustion engines 247
CARPENTER, R E, ON DEVELOPMENTS IN ALLOYED ALUMINUM 86
Casinghead gasoline, use of 125

Castings
Iron and steel, for automobile parts 328
Steel, for automobile parts 328
Census of electric light and power central stations 384
Central stations, census of electric light and power 384
CHASE, LEON W, ON TRACTOR TESTING FROM THE USER'S STANDPOINT 76
Chassis standardization by Motor Transport Corps 175
Chemical industry can do, what the 227
Chemistry of fuels 225, 489
Chicago meeting, S A E 355, 407, 488
CLARKSON, C F, ON AUTOMOTIVE ENGINEERING STANDARDIZATION AND PROGRESS 356
CLARKSON, C F, ON WASHINGTON FUEL MEETING 500
Clutch teeth, design of splines and 150

Coal
Securing oil from bituminous 351
Value of production 316
Collective bargaining 358
Colloidal fuel 561
Combustion of fuels in internal-combustion engines (C F Kettering) 224
Combustion of fuels in the internal-combustion engine (Thomas Midgley, Jr) 489

Combustion
Delayed 182
Experiments to show phenomena 227
Coming of brine in oil wells 325

Committees
Administrative, S A E, personnel 303
Administrative, S A E, work of 127
American Engineering Standards 344, 399
Membership, S A E, report at summer meeting 4
Minneapolis section tractor research, report of 180
Nominating, S A E, personnel 4

Diesel Engine of the German submarine U-117 (Com H C Gibson) 15

Dinners

Addresses at Chicago Truck and Tractor 64
Tractor, announced 355
Tractor at Columbus 407, 488
Discussion of fuel papers at summer meeting 121
Distributing overhead expense 36
DIXON, H B, ON RESEARCHES ON ALCOHOL AS AN ENGINE FUEL 521
DRAKE, BRIG-GEN C B, ON WAR DEPARTMENT MOTOR TRANSPORT POLICY 175

Drawbar Pull

Effects of slopes and weights on 7
Relation of tractor weight to 329
Tractor 394
Tractor weight and (A F Moyer) 232
DREFS, A G, ON SHOP PRODUCTION-CONTROL AND ACCOUNTING SYSTEMS 33, 470
DUNHAM, GEORGE W, ON ARTILLERY MOTORIZATION AS RELATED TO CATERPILLAR TRACTION 76
Duralumin 359

Duralumin

Influence of heat and cold 362
Strength properties 360
Working of 359
Dynamometer car 275

E

Economics, international debt and 340

Economy

Carbureter tuning for 341
Considerations affecting engine 28
Engine design for maximum power and fuel (C A. Norman) 182
Fuel, and development of power 183
Fuel, improved by air heating 184
Intake-manifold temperatures and fuel (W S James, H C Dickinson and S W Sparrow) 131
Pneumatic tire trucks 363
Saving fuel with the carbureter (W E Lay) 188
EDGERTON, A H, ON DECREASING UNSPRUNG WEIGHT BY THE USE OF ALUMINUM 75

Effects

Alloying on physical properties of aluminum 297
Altitude on radiator performance 61
Change in angle of stabilizer setting and area 513
Charge structure on engine performance 190
Engine power 543
Kiln drying on the strength of woods 431
Employes of interdepartment production contests 258
Nature of radiator cooling surface 346
Electric light and power central stations, census of 384
Electric storage batteries, operation and maintenance 234
Electric lighting systems, tractor 162

Electric Transportation Division, S A E

Activities 481
Personnel 303
Report at summer meeting 4, 199
Result of letter ballot on standards 339

Electrical Equipment Division, S A E

Activities 399, 481, 558
Personnel 303
Report at summer meeting 198
Result of letter ballot on standards 339
Subjects assigned 408
Electrification, railroad 326
ELMENDORF, ARMIN, ON PLYWOOD AND ITS USES IN AUTOMOBILE CONSTRUCTION 390
Emergency equipment for motor trucks 371
Employes, effect of interdepartment production contests 258
Engine design for maximum power and economy of fuel (C A Norman) 182, 449

Engine Division, S A E

Activities 399, 481
Personnel 303
Report at summer meeting 200
Result of letter ballot on standards 339
Subjects assigned 408
Engine lubrication 126
Engineer in industry (E A Deeds) 331
Engineering, automotive standardization and progress (C F Clarkson) 356
Engineering Council, research work under way 482
Engineering, manpower 156
Engineering possibilities as indicated by the progress of science (C F Kettering) 56
Engineering students enrolled 352
Engineer's problems involving men 210

Engines

Acceleration improved with heated manifold 230
Acceleration tests 135
Advantages of magneto ignition 277
Air compressors on Diesel 17
Air heating reduces power 184
Alcohol as fuel 320
Alcohol fuel mixtures 345
Apparatus used in tests of heavy-duty high-speed 93
Application of heat to fuels 26
Battery-ignition systems 537
Bench, road and service tests 556
Best type 392
Big marine Diesel 503
Brake economy with hot-spot manifold 230
Carburetion of heavy fuels 392
Carburetion system 247
Certain and uncertain ignition 478
Combustion of fuels in internal-combustion (C F Kettering) 224
Combustion of fuels in the internal-combustion (Thomas Midgley, Jr.) 489
Comparative spark values 279
Condensation of fuel 26
Conditions in cylinders 191
Connecting-rods 244
Considerations affecting economy 28
Controlling and atomizing fuel by variable pressures (J G Willet) 51
Cooling fans 552
Cooling system 253
Corliss 333
Crankcase 246
Crankshaft 244
Criterion of performance 192
Critical speeds 419
Critical speeds of torsional vibration 418
Cylinder arrangement 235
Decrease in brake mean effective pressure and horsepower 229
Degree of spark-advance 286
Delayed combustion 182
Design for maximum power and economy of fuel (C A Norman) 182
Design of supercharged aircraft 177
Design requirements of automotive, to secure good fuel results 148
Detonation and turbulence 122
Development of the theory of knock 494
Diesel of the German submarine U-117 (Com H C Gibson) 15
Distribution of incoming charge 395
Effect of air heating on power 182
Effect of charge structure on performance 190
Effect of design on turbulence 395
Effects on power 543
Electric and hydraulic analogy 537
Exhaust jacket manifold used at Bureau of Standards 133

Factors controlling combustion 357
Flame propagation 286
Flexibility and acceleration 230
Flywheel 245
Freedom from crankcase dilution 231
Fuel consumption 231
Fuel converter 23
Fuel economy and development of power 183
Fuel economy improved by air-heating 184
Fuel problem 57
Fuel problem from the refiner's viewpoint 291
Fuelizer 248
Gas, indicator 490
Glass manifold used at Bureau of Standards 132
Heavy-duty high-speed (Otis E Griner and Mark A Smith) 89
Hot-spot manifolds 121
Ignition from the engineman's viewpoint (Capt. G E A Hallett) 475
Ignition system 250
Increase in maximum pressures produced by preignition (S W Sparrow) 397
Induction leaks 357
Inlet manifold condensation 346
Intake-manifold temperatures and fuel economy 131
Internal-combustion as developed by the automotive industry (J G Vincent) 235
Internal-combustion, gasoline survey (N A C Smith) 300

Present S A E standards for splines 150
Result of letter ballot on standards 339
River freight system needed 434
Routine in establishing 344
Science of (R S Burnett) 343
Tentative report of the National Screw Thread Commission 317
Standardization in Germany 553
Standardized lubricant specifications 290

Standards Committee, S A E

Attendance at June meeting 210
Personnel 303
Report at summer meeting 4, 195
Session at annual meeting 355, 407
Starting system 252
Stationary Engine Division, S A E, personnel 304
Steel and iron castings for automobile parts 328

Steels

Case-hardening for automobile parts 327
Chromium-vanadium for automobile parts 327
Constituents, characteristics and uses of stainless 350
Critical points in heat-treatment of 432
Heat-treatment of high chromium (H J French) 103
Method for identifying stock 555
Most suitable, for automobile parts (Dr W H Hatfield) 327
Nickel-chromium for automobile parts 327
Nickel, for automobile parts 327
Quenching and tempering temperatures 104
Siemens for automobile parts 327
Stellite and stainless (Elwood Haynes) 349
Valve and spring 328
Stellite and stainless steel (Elwood Haynes) 349
STOCKFLETH, B, ON TRACTOR ENGINE TEST 84
Storage batteries and auxiliary devices 281

Stresses

Analysis of wing truss 548
Optical determination of, in airplane spars 393
Relation of rib spacing to, in wing planes 391
Strain relations in wing plane fabric 391
Students enrolled, engineering 352
Study of road impact and spring and tire deflection (A F Masury) 96
Style and automobile body types 267
Subgrade of highways 431
Submarine U-117, Diesel engine of the German, (Com H C Gibson) 15
Submarines, period of shafting 423
Summer meeting plowing-speed tests 274

Summer Meeting

Constitutional amendment discussion 145
Discussion of fuel papers 121
Discussion of papers 446
Exhibits 6
Exhibits, photographs of some 158
Fuel sessions 121
Lectures 6
Plowing-speed tests 274
Report on engine tests at 228
Resolution passed against compulsory adoption of metric system 155
Sports, photographs of 157
Standards Committee report 4
Transportation session 178
Treasurer's report 4
Supercharged engine and airplane performance 302
Supercharger problems 32

T

Tank attack experiments 74

Tanks

Armor for airplane gasoline 555
Gasoline, in tractors 325
Rubber armor for airplane gasoline 555
TAYLOR, COL B, ON MILITARY AND COMMERCIAL MOTOR TRANSPORTATION 316
Telephoning via cable wire, experiment in 435

Temperatures

Fuel mixture 26
Ignition, of alcohol and other vapors 522
Ignition, of vapors heated separately 522
Intake-manifold, and fuel economy (W S James, H C Dickinson and S W Sparrow) 131, 451
Quenching and tempering for steel 104
Surface area to give proper mixture 28
TEMPLIN, E W, ON WHAT MOTOR TRUCKS NEED TO SUPPLEMENT PNEUMATIC-TIRE EQUIPMENT 369
Tentative report of the National Screw Thread Commission 317
Test block and service conditions 123
Testing a Hispano-Suiza engine 63
Tests to check safe vehicle speeds 351

Tests

Acceleration 135
Airplane wood finishes 398
Alcohol-benzol by London General Omnibus Co. 345
Alloys of iron and chromium 349
Apparatus used in heavy-duty high-speed engine 93
Bench, road and service engine 556
Block and service conditions 123
Engine 254
Engine and equipment for intake-manifold temperatures and fuel economy 131
Evaporation losses from crude oil 436
Hispano-Suiza engine 63
Intake-manifold with glass section 132
Lubricants 290
Manifold with exhaust jacket 133
Mixture-ratio at University of Michigan 188
Ottawa Beach plowing speed 274
Power required to drive magnetos and generators 554
Report on engine, at the summer meeting 228
Road impact and spring and tire deflection 96
Safe vehicle speed 351
Show combustion phenomena 227
Spark-plug 478
Strength of metal wheels 439
Tank attack 74
Telephoning via cable wire 435
Tractor engine (C A Norman and B Stockfleth) 84
Tractor from the user's standpoint 76
Tractor weight to drawbar-pull 329
Theory of the accelerometer 189
Thrilling experience with parachute 223
TICE, P S, ON SOME OF THE FACTORS INVOLVED IN FUEL UTILIZATION 190, 449

Tire and Rim Division, S A E

Activities 399, 560
Personnel 304
Report at summer meeting 4, 205
Result of letter ballot on standards 339
Subjects assigned 408
Tire production in the United States 524

Tires

British standardization 154
Data on pneumatic, and rims used on trucks (Burgess Darrow) 366
Dual pneumatic 368
Oversize 444
Pneumatic, and motor-truck development experiences (M D Scott) 375
Practicability of pneumatic 365
Production in the United States 524
Relation of solid and pneumatic to motor-truck efficiency (S V Norton) 80
Shock effect of pneumatic 370
Study of road impact and spring deflection (A F Masury) 96
Truck service, pneumatic 376
What motor trucks need to supplement pneumatic equipment (E W Templin) 369
Why use pneumatic, for motor trucks? (W E Shively) 363
Topographic mapping, Government 109
Torsional vibration and critical speeds in crankshafts (J F Fox) 413
Tractive factor of engines 370

Tractor Division, S A E

Activities 560
Personnel 304
Report at summer meeting 209
Result of letter ballot on standards 339
Tractor dinner announced 355
Tractor dinner at Columbus 407, 488
Tractor drawbar-pull 394
Tractor engine test (C A Norman and B Stockfleth) 84
Tractor testing from the user's standpoint (Leon W Chase) 76
Tractor weight and drawbar pull (A F Moyer) 232
Tractor wheels (A W Scarratt) 342

Tractors

Analysis of fundamental factors affecting design (O B Zimmerman) 7, 465
Artillery motorization as related to caterpillar (George W Dunham) 76
Brake and clutch controls 323
Drawbar-pull 394
Driving axle 324
Dynamometer car 275
Electric lighting systems 162
Engine 323
Four-wheel-drive applied 386
Four-wheel-drive vs. caterpillar (E R Greer) 385
Frame and track idlers 322
Fuel consumption 141
Gasoline tank installation 325
Generic name for industrial trucks and 111
Harvesting 170
Hauling 172
Kerosene as a fuel (John A Secor) 140
Kerosene engine development 141
Motorizing the farm 436
Need for research work 12
New Army light artillery (G R Pennington and S K Wellman) 321
Ottawa Beach plowing-speed tests 274
Plowing and harrowing 170
Rating on piston displacement 334
Relation of weight to pull 329
Report of Minneapolis Section research committee 180
Sliding type transmission in 323
Speed affected by soil resistance 11
Spring suspension, special 321
Testing from the user's standpoint (Leon W Chase) 76
Track-laying type 321
Train diagram 174
Types of construction 169
Weight and drawbar pull (A F Moyer) 232
Wheels (A W Scarratt) 342
Trade balance 561

Traffic and Transportation

Comparison of modes 178
Economics of pneumatic-tire trucks 363
Future of 341
Highway improvement 129
Highway transport surveys 74
Lack of railroad facilities 402
Military and commercial motor 316
Motor bus 67, 461
Motor-truck service regulation 355
National 384
National distribution of food 114
Necessity for new types of road haulage 185
New York State's barge canal 410
Problems of inland waterway 433
Short-haulage problem 400
Tests to check safe vehicle speeds 351
Train diagram 174
Transactions and Journals wanted, old 431

Transmission Division, S A E

Activities 399, 482
Personnel 304
Report at summer meeting 210
Result of letter ballot on standards 339
Subjects assigned 408

Transmissions

Sliding type in tractors 323
Tractors, sliding type 323
Transportation, national 114
Transportation session at summer meeting 6
Treasurer's report, S A E, at summer meeting 4
Trend of automobile body design (G J Mercer) 263

Truck Division, S A E

Activities 399, 408
Personnel 304
Truck and tractor meeting, discussion of papers 75

Trucks

Body design standardized 176
Generic name for industrial, and tractors 111
Government standardized 176
Parts specification standardized 176
Wood wheels (S V Lovenstein) 438
Tubes, pneumatic truck tires 367
Tuning-fork torsional-vibration study 414

Turbulence

And detonation 122
Effect of engine design on 395

U

Ultimate structure of matter 56
United States a creditor nation 55
Unprecedented road building program 234
Unsprung weight, ratio of 443
Urban population, proportion of 408
Use of casinghead gasoline 125
Use of the name of the Society 436

V

Vacant public lands 302
Value to the management of production contests 260
Values, spark-plug gaps and current 540

Valves

Arrangement in internal-combustion engines 240
Pneumatic truck tire 367
Steel for 328
Vaporizer 54
Varying quenching and tempering temperatures 104
Verne, Jules 340
Vibration and critical speeds in crankshafts, torsional (J F Fox) 413
Vibration dampers 417

Vibrations

Critical speeds of torsional (F M Lewis) 418
Mathematical analysis of torsional 420
Torsional, and Critical speeds in crankshafts (J F Fox) 413
VINCENT, J G, ON INTERNAL-COMBUSTION ENGINE AS DEVELOPED BY THE AUTOMOTIVE INDUSTRY 235
Vincent, J G, presidential address 4, 127

W

WALKER, C S, ON WIRE WHEELS 441
WALKER, KARL F, ON AUTOMOTIVE RADIATORS 549
War Department Motor Transport policy (Brig-Gen C B Drake) 175
Washington fuel meeting (Coker F Clarkson) 500
Waste material scattered 146
Waterpower, applications for 273
Waterway transportation, problems of inland (Carl J Baer) 433
Wax models of automobile bodies 266

Weight

Effects on drawbar pull 7
Relation of tractor to pull 329
Tractor, and drawbar pull (A F Moyer) 232
WELCH, R L, ON FUEL PROBLEM FROM THE REFINER'S VIEWPOINT 291
WELCH, R L, ON GASOLINE SITUATION 353
Welding and its relation to the repair industry (Lorn Campbell, Jr.) 42

Welding

Costs 46
Fluxes 44
Oxy-acetylene apparatus 43
Practical methods 44
Relation to repair industry 42
Repairs to motor vehicles 42
WELLMAN, S K, ON NEW ARMY LIGHT ARTILLERY TRACTOR 321
What motor trucks need to supplement pneumatic-tire equipment (E W Templin) 369
What the chemical industry can do 227

Wheels

Data on pneumatic tires and rims used on trucks 366
Disadvantages and advantages of wire 442
Oversize tires 444
Single-disc metal (A L Putnam) 437
Standardization of hubs 444
Strength tests of metal 439
Tractor (A W Scarratt) 342
Types of wire 441
Wire (C S Walker) 441
Wood truck (S V Lovenstein) 438
WHITE, PERCIVAL, ON OPERATING SPEEDS OF AGRICULTURAL IMPLEMENTS 47, 467
Why use pneumatic tires for motor trucks? (W E Shively) 363
WILLET, J G, ON CONTROLLING AND ATOMIZING FUEL BY VARIABLE ENGINE PRESSURES 51
Williams, C C, Major-Gen, address 65
Winter meetings of the Society 407
Wire wheels (C S Walker) 441
Wireless, fog-bound airplanes guided by 63
Wood automobile body frames 267
Wood, Major-Gen Leonard A, address 64
Wood truck wheels (S V Lovenstein) 438

Woods

Effect of kiln drying on the strength of 431
Kiln drying for airplanes 181
World debt 437
YAMAUCHI, YOSHITO, ON HEAT-TREATMENT OF HIGH-CHROMIUM STEEL 103
ZIMMERMAN, O B, ON ANALYSIS OF FUNDAMENTAL FACTORS AFFECTING TRACTOR DESIGN 7, 465
